Residential Lighting Aluminium LED Strip With Electrophoretic Coating

Our Product Introduction

for more products please visit us on led-stripslights.com

Basic Information

- Place of Origin: Shenzhen China
- Brand Name: YSENLED
- Certification: CE ROHS LVD EMS
- Model Number: YS-BAPL001
- Minimum Order Quantity: 100
- Price: Negotiable
- Packaging Details: 115*19*20cm
- Delivery Time: Within 48 hours
- Payment Terms: T/T
- Supply Ability: 100,000 meters per week

Product Specification

- Features: Corrosion-resistant, Lightweight, High-strength
- Option3: PMMA Clear Diffuser
- Processing Performance: Easy To Cut, Drill, Bend
- Application Fields: Construction, Home Decoration, Advertising Display, Machinery And Equipment Manufacturing
- Option2: PMMA Semi-clear Matte Diffuser
- Product Name: 20mm*10mm Aluminium LED Strip Lights
Corrosion Resistant And Easy To Process
- Surface Treatment: Anodizing, Electrophoretic Coating, Powder Spraying
- Quality Certification: CE Certified

Product Description

Product Description:

The led strip in aluminium profile can be used for various purposes such as illuminating dark areas, creating an ambient light effect, or highlighting a specific object or area. The product is easy to install and can be fixed in place using screws or adhesive tape. The aluminium profile is designed to provide a sleek and modern look to any environment and is perfect for use in both residential and commercial settings.

The 20mm led strip lights are designed to provide high-quality illumination that is bright, energy-efficient, and long-lasting. The product emits a bright white light that is perfect for creating a bright and inviting atmosphere in any environment. The product is easy to process and can be cut to size according to the required length. The profile comes with no additional edge treatment on the surface, making it easy to work with and process.

Overall, the 20mm*10mm Aluminium LED Strip Lights are an excellent product that provides exceptional features and is perfect for a wide range of applications. The product is designed to work in a corrosion-resistant environment, is lightweight, and has high-strength, ensuring that it lasts for an extended period. The led strip in aluminium profile is easy to install, provides a sleek and modern look, and is perfect for use in both residential and commercial settings. The 20mm led strip lights provide high-quality illumination that is bright, energy-efficient, and long-lasting, making it a great product for any environment.

Features:

Product Name: 20mm*10mm Aluminium LED Strip Lights Corrosion Resistant And Easy To Process

Product Category: Aluminium LED Strip Lights

Quality Certification: CE certified

Size: 20mm*10mm

Processing Services: Customized cutting and drilling available

Features:

High quality LED strip

10mm LED lights

Corrosion resistant

Easy to process

Technical Parameters:

Technical Parameters	Product Description
Product Name	20mm*10mm Aluminium LED Strip Lights Corrosion Resistant And Easy To Process
Product Category	Aluminium LED Strip Lights
Option1	PMMA Opal Matte Diffuser
Option2	PMMA Semi-clear Matte Diffuser
Option3	PMMA Clear Diffuser
Features	Corrosion-resistant, lightweight, high-strength
Quality Certification	CE certified
Application Fields	Construction, home decoration, advertising display, machinery and equipment manufacturing
Processing Services	Customized cutting and drilling available
Use Scenario	Identify the specific size and strength requirements required for led strip in aluminium profile

Applications:

YSENLed's Aluminium LED Strip Lights, model number YS-BAPL001, is a high-quality product that is perfect for a variety of applications. With certifications including CE, ROHS, LVD, and EMS, this product is guaranteed to meet the highest standards of safety and quality. Originating from Shenzhen, China, this product has a minimum order quantity of 100 and accepts payment terms of T/T. With a supply ability of 100,000 meters per week, this product can be delivered within 48 hours of ordering and comes in packaging dimensions of 115*19*20cm. The price is negotiable, making it an affordable solution for a variety of needs.

The Aluminium LED Strip Lights are perfect for a variety of application fields, including construction, home decoration, advertising display, machinery and equipment manufacturing. The PMMA Clear Diffuser option adds an extra layer of versatility, allowing for a range of surface requirements to be met by choosing an appropriate surface treatment method according to the use environment.

With a width of 10mm, the aluminium light strip is lightweight and easy to process, making it perfect for an array of needs. The high-strength design ensures durability and longevity, and the corrosion-resistant properties make it perfect for harsh environments. The 20mm*10mm Aluminium LED Strip Lights are a great solution for those seeking a reliable, high-quality lighting solution for a variety of applications.

Support and Services:
