Basic Information

- Place of Origin: SHENZHEN CHINA
- Brand Name: YSENLED
- Certification: CE ROHS LVD EMS
- Model Number: YS-R30X3528RA-F3
- Minimum Order Quantity: 10
- Price: Negotiable
- Packaging Details: 10*1000*20
- Delivery Time: 2DAYS
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100,000 meters per week

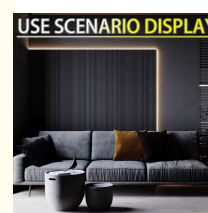

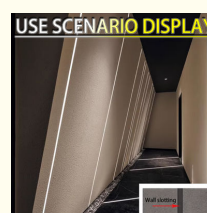

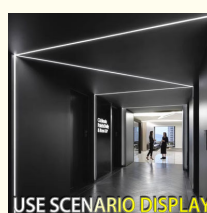

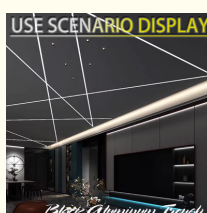

Product Specification

- Led Light Source: SMD 5630
- Length: Customizable
- Lamp Power: 14.4W/M
- Input Voltage: 24V Low Voltage
- Voltage Range: DC12V
- Type: LED Strip Lights
- Width: 10mm
- Service: Custom
- Installation: Self-adhesive Backing
- Cri: 80+
- Dimmable: Yes
- Led Chip: Smd5730
- Voltage: 12V/24V
- Price Range: From A Few Yuan To Dozens Of Yuan
- Certifications: CE, RoHS

Our Product Introduction

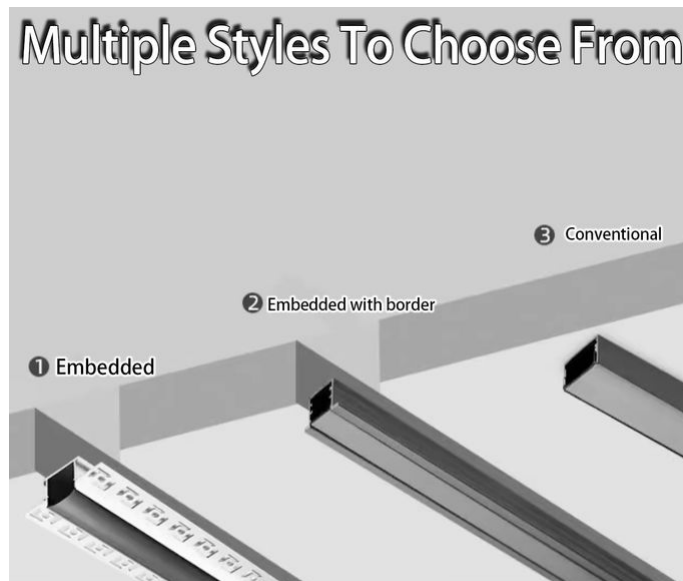

Product Description

**Linear lamp embedded
black water line lamp LED
plaster ceiling lamp
trough living room corner
aluminum profile slot**

product is a lighting solution that combines beauty and practicality, and is widely used in modern home decoration. The following is a detailed introduction to the product:

1. Product Overview

The product is mainly composed of LED line lamps, black water line lamp strips, plaster ceiling lamp troughs, living room corner aluminum profile slots and other components. It adopts embedded installation method, which can perfectly integrate into various decoration styles, and provide soft and layered lighting effects for living rooms and other spaces.

High Quality Aluminum Alloy Profiles
Different specifications can be customized

Made Of High Quality Aluminum
Easy To Process

Strong And Durable High-Quality Aluminum

2. Product Features

LED light source: It adopts high-efficiency and energy-saving LED light source with advantages such as long life, low energy consumption and high brightness. The LED light source has uniform luminous effect and high color reproduction, which can create a warm and comfortable home atmosphere.

Black water line lamp strip: The lamp strip adopts black design, which forms a sharp contrast with the aluminum profile slot and plaster ceiling, enhancing the layering of the space. The design of the water line makes the light show dynamic beauty in the flow, adding a unique landscape to the living room.

Gypsum ceiling light trough: The light trough is made of gypsum material, which has good fireproof, moisture-proof, sound insulation and other properties. Its shape is simple and generous, which can be coordinated with various decoration styles and enhance the overall decoration

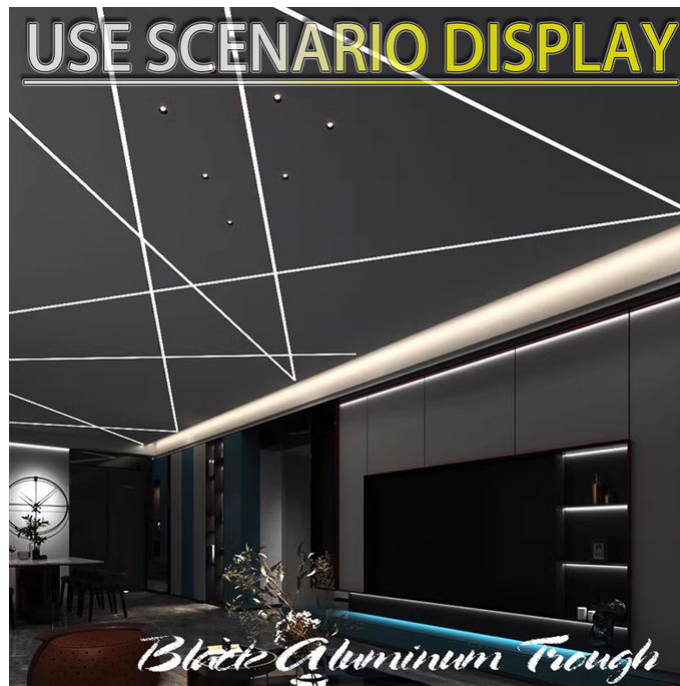

grade.

Living room corner aluminum profile

slot: The slot is made of high-quality aluminum profile, which has the characteristics of corrosion resistance, wear resistance and easy cleaning. The design of the slot enables the linear light to be firmly installed in the gypsum ceiling, and is convenient for subsequent maintenance and replacement.

Embedded installation: The product adopts embedded installation, does not take up extra space, and is easy and quick to install. After installation, the linear light is integrated with the ceiling, and the visual effect is more neat and beautiful.

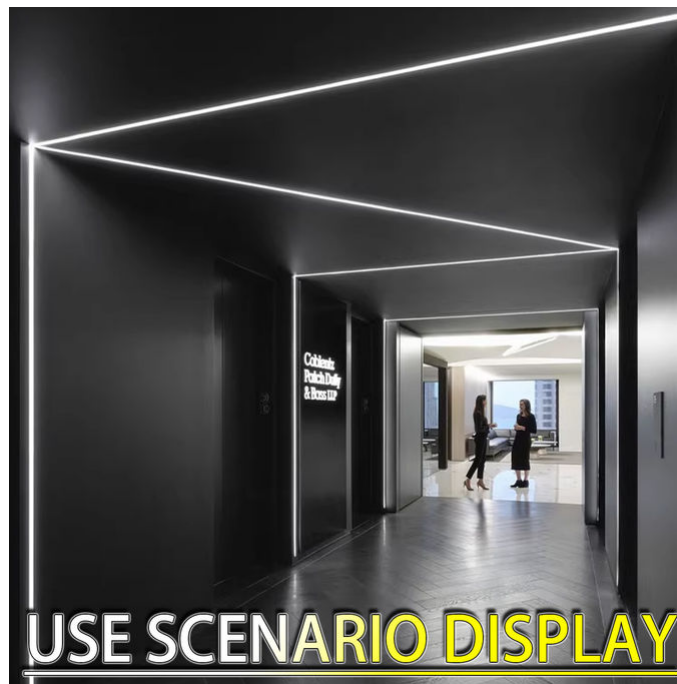

3. Application scenarios

This product is suitable for various home decoration scenes, especially living rooms, bedrooms, restaurants and other spaces that need to create a warm and comfortable atmosphere. At the same time, it is also suitable for lighting decoration in commercial places such as hotels, restaurants, cafes, etc.

4. Purchase suggestions

Brand selection: It is recommended to choose products from well-known brands to ensure product quality and after-sales service.

Light source quality: Pay attention to check whether the parameters such as the luminous effect, brightness, and color temperature of the LED light source meet personal needs.

Material selection: The materials of the lamp trough and the card slot should have good durability and beauty to meet the needs of long-term use and decoration effects.

Installation service: When purchasing, you can ask the merchant whether it provides installation services or installation guidance to ensure that the product can be installed correctly and achieve the best lighting effect.

USE SCENARIO DISPLAY

USE SCENARIO DISPLAY

In summary, the linear lamp embedded black water line lamp LED gypsum ceiling lamp trough living room corner aluminum profile card slot product is a lighting solution that combines beauty and practicality, and can provide high-quality lighting effects for homes and commercial places. When purchasing, it is recommended to make comprehensive considerations and choices based on personal needs and actual conditions.
