

Silicone Material LED Strip Light 12v Super Bright Low Voltage 2835 for Counter Advertising

Our Product Introduction

Basic Information

- Place of Origin: SHENZHEN CHINA
- Brand Name: YSENLED
- Certification: CE ROHS LVD EMS
- Model Number: YSR60X5630RA-F3
- Minimum Order Quantity: 10
- Price: Negotiable
- Packaging Details: 10*1000*20
- Delivery Time: 2DAYS
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100,000 meters per week

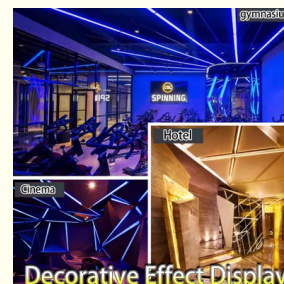

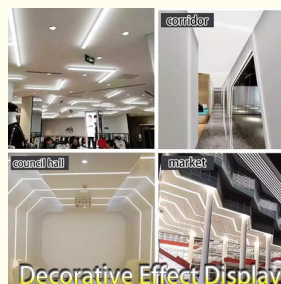

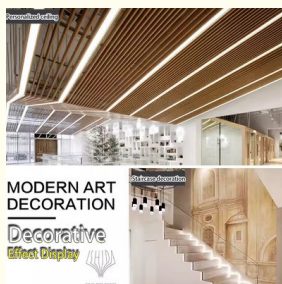

Product Specification

- Controller: Wifi And 24keys
- Led Chip: 5050 SMD
- Chip: Epistar
- Cuttable Length: Every 3 LEDs
- Voltage: DC5V
- Remote Control: Yes
- Waterproof Grade: IP68
- Power: 20w Each Meter
- Waterproof Rating: IP65
- Power Source: USB
- Strip Light Material: Silicone
- Color: RGB
- Meter: 5m/reel
- Switch Mode: Bluetooth, Remote Control, Wifi
- Beam Angle: 120°

Product Description

The following is a detailed introduction to the LED soft light strip 12v super bright low voltage 2835 counter advertising light box decorative light ultra-thin self-operated advertising products:

1. Product Overview

LED soft light strip 12v super bright low voltage 2835 counter advertising light box decorative light is an LED product designed for decorative lighting such as counters and advertising light boxes. It uses 12v low voltage power supply to ensure safe use; 2835 model LED lamp beads provide super bright lighting effects; ultra-thin design, easy to install and hide, does not take up extra space.

2. Product Features

Low voltage safety: The product uses 12v low voltage power supply, which is safer and more reliable than traditional 220v high voltage light strips, reducing the risk of electric shock and fire.

Ultra-bright lighting: It uses high-quality 2835 model LED lamp beads, which contain a certain number of lamp beads (such as 120 beads) per meter to ensure bright and uniform lighting effects.

Ultra-thin design: The product is ultra-thin, easy to install and hide, suitable for use in various small spaces, and does not affect the overall appearance.

Energy saving and environmental protection: LED lamp beads have the characteristics of low power consumption and long life. Compared with traditional lighting products, they can save a lot of energy and reduce carbon

emissions.

Easy to control: The product supports dimming and color adjustment functions (some products), and the brightness and color temperature can be adjusted as needed to meet the needs of different scenarios.

3. Product specifications

Input voltage: 12v DC

LED lamp bead model: 2835

Number of LED lamp beads: 120 per meter (or other quantity)

Power factor: high (generally greater than 0.9)

Effective life: up to 20,000 hours

Color temperature: optional white light (6500k), warm white (3500k), neutral white (4500k), etc.

Beam angle: generally 120 degrees (or other angles)

Size: Width can be selected from 5mm, 8mm, etc., and length can be customized according to needs

Protection level: generally not waterproof (IP20), but some products can provide waterproof function

Decorative Effect Display

4. Application scenarios

Counter lighting: used for lighting and decoration of counters in shopping malls, supermarkets, specialty stores, etc. to enhance the display effect of goods.

Advertising light box: used for lighting of advertising light boxes to make the advertising content more eye-catching and attractive.

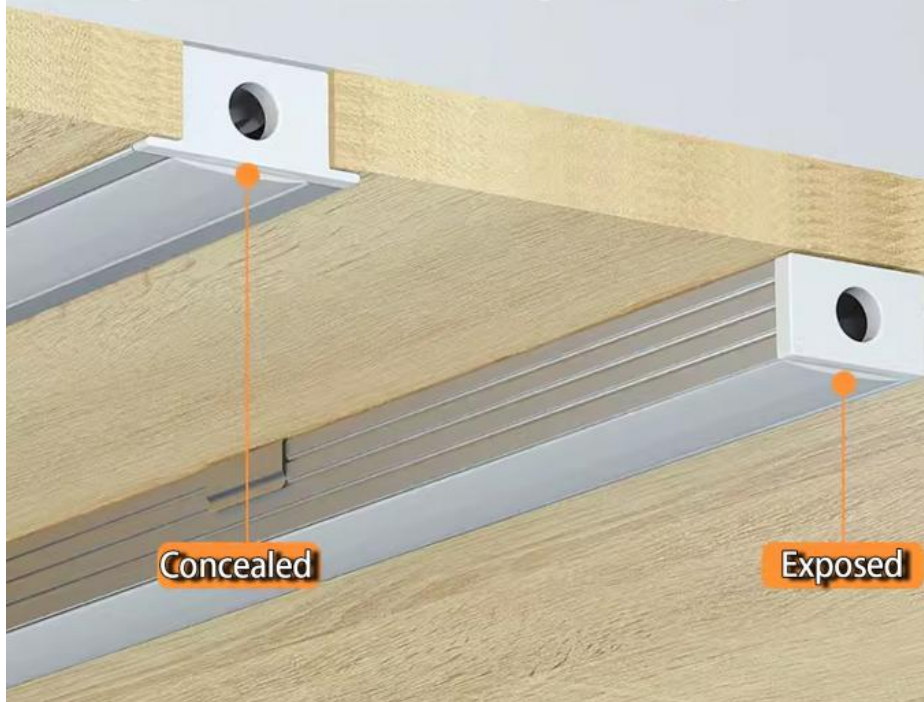

Home decoration: used for lighting and decoration of home environment, such as ceiling, background wall, cabinet, etc.

Commercial display: used for lighting and decoration of exhibitions and display activities to create a good display atmosphere.

Double Choice Of Light And Dark

A variety of styles for you to choose

Solving the discomfort of aluminum grooves during installation

5. Installation and maintenance

Installation: The product adopts a self-adhesive design and can be directly pasted to the location where lighting is required. Before installation, please make sure the surface is clean, flat, free of dust and oil.

Maintenance: Regularly check the connection and fixation of the product to ensure that there is no looseness and falling off. Avoid long-term exposure to humid and high temperature environments to extend the service life of the product.

6. Precautions

Please read the product manual carefully before use: understand the use and precautions of the product.

Avoid direct contact with LED lamp beads: so as not to damage the lamp beads or affect the lighting effect.

Avoid excessive bending: so as not to damage the circuit and line of the product.

Non-professionals are not allowed to disassemble without authorization: to avoid the risk of electric shock and damage to the product.

To sum up, the LED soft light strip 12v super bright low voltage 2835 counter advertising light box decorative light is a lighting product with excellent performance, safety and reliability, easy installation and maintenance, suitable for various counters, advertising light boxes and other decorative lighting scenes.
